

S-23 SARM Compound Purity Assessment
Nanolab - plus

Number #C5E9B2A4D-NOP
Testing ordered > 2025-01-18

Product: S-23
Dosage: 10mg/tab
Doctor: Dr. Rajiv Kumar
Manufacturer: Vitasarm
Batch: S-23 (Lot# C5E9B2A4D-2024)

Sample description >

Comprehensive analysis of S-23 selective androgen receptor modulator focusing on chemical purity, structural integrity, and concentration accuracy. This evaluation ensures the product meets research chemical standards with particular attention to isomeric purity and potential synthetic byproducts.
